

Wireless Broadband 101 Workshop “Tuning In”

October 18, 2006
West Piedmont Planning District Office
1100 Madison Street
Martinsville, VA 24115
[directions](#)

If you find the “alphabet soup” of wireless broadband technologies, acronyms and jargon to be confusing... This is the workshop for you!

This **free** four hour interactive workshop provides participants with the opportunity to learn about wireless broadband technologies and how they can improve an organization’s bottom-line.

Topics to be covered include:

What is “Wireless Broadband”?

- Understand wireless broadband technologies, acronyms and jargon
- Learn how wireless broadband is changing the business and social landscape, and what it means to you

Broadband Benefits:

- Determine how implementing wireless broadband can cut costs and improve productivity
- Understand where to look for potential cost savings that could be realized by implementing wireless broadband
- Leave with the tools you need to assess your wireless broadband readiness and make informed decisions.

Event Schedule
