

November 30, 2006
Wireless Broadband 101 Workshop
“Tuning In”

If you find the “alphabet soup” of wireless broadband technologies, acronyms and jargon to be confusing... This is the workshop for you! This free four hour interactive workshop provides participants with the opportunity to learn about wireless broadband technologies and how they can improve an organization’s bottom-line.

Topics to be covered include:

What is “Wireless Broadband”?

- Understand wireless broadband technologies, acronyms and jargon
- Learn how wireless broadband is changing the business and social landscape, and what it means to you

Broadband Benefits:

[Event Location](#)

Patrick Henry Community College
212 Johnson Street
Stuart, VA 24171

[Event Schedule](#)

10:00 a.m. Registration

10:30 a.m. – 2:00 p.m. Workshop
(working lunch is included)

Broadband Benefits:

- Determine how implementing wireless broadband can cut costs and improve productivity
- Understand where to look for potential cost savings that could be realized by implementing wireless broadband
- Leave with the tools you need to assess your wireless broadband readiness and make informed decisions.

(working lunch is included)
