

Mining for Money, What You Don't Know CAN Hurt You!
December 12, 2006 12:00pm
IALR, Danville, VA

What makes teams so hard to manage? What situations are businesses faced with by having “yes men” at the top? How do you get everyone on the same page and working together? Today, our guest speaker, Daniel Markham, President of the Bedford Technology Group will be answering these questions and speaking from his experience in management and IT consulting for several Fortune 500 companies. Mr. Markham will give take home tips and tricks to help your team run better. Q&A session will follow the presentation.

About the Speaker

Daniel Markham is a hands-on software architect who over the past several years has become a RUP mentor and Technology Strategist. Programming in all major languages and database platforms, his clients include Pitney Bowes, Ford, Charles Schwab, and the Department Of Defense.
