

July 10th Tech Bunch For Lunch

Topic: Virtualization

It's a Virtual World ... and it's cheaper, faster and better! Come learn about how local companies are leveraging new trends in virtualization to drive costs out of technology ownership:

- How to lower server cost by 30-50%
- Enable disaster recovery (DR) plans, saving up to 90% of traditional DR
- Save \$400 per desktop PC
- New ways to save on software licensing
- New trends in PC, server and application virtualization

Our speaker, Gregg Erwin of SyCom Technologies will discuss trends in virtualization, and discuss how local and regional governments and companies are using it to enable their IT infrastructure in new ways.

Topic: Virtualization

When: July 10, 2007

Time: 12:00 PM- 1:00 PM

Where: the Restaurant at the Stratford Inn Riverside Drive, Danville VA

The Strafford Inn's lunch buffet includes a 35 item...Cost is \$11.50 including beverage & tip.

Like many other civic clubs, we plan to hold the meetings on a regular monthly basis (2nd Tuesday of each month) so interested people can build into their calendars. Monthly meetings will be limited to 1 hour to allow attendees to get back to work in a timely manner. We will follow a format similar to other civic clubs in that the meal will begin when you arrive and continue through the lunch hour. Because we will eat from the buffet, a late arrival will not disrupt the meeting. At approximately 12:20, we will have a few short announcements followed by a speaker that will be limited to 15-20 minutes. We will close the meeting with Q&A as well as additional networking. One of the goals of this club is to allow those that attend determine what course it follows and we hope attendees will suggest future topics of interest as well as alternate meeting times, if desirable.
