

November 13th Tech Bunch For Lunch

Topic: nDanville Project "Connecting Danville to the Future"

Join us to learn about the City of Danville's exciting telecommunications project that will use nDanville's high performance fiber and wireless technologies to provide a broadband connection to every home and business in Danville's electric service area over the next several years. nDanville will function as an open-access, multi-services network with private businesses delivering telecommunications services to customers rather than the City itself.

Broadband connections to households and businesses will provide access to educational resources, open economic development opportunities, improve utility resiliency and reliability, and involve the community in energy management and conservation.

The basic concept of this project, how it will work, and its benefits will be discussed.

When: November 13, 2007

Time: 12:00 PM- 1:00 PM

Where: the Restaurant at the Stratford Inn Riverside Drive, Danville
VA

The Stratford Inn's lunch buffet includes a 35 item... Cost is \$11.50 including beverage & tip.

Like many other civic clubs, we plan to hold the meetings on a regular monthly basis (2nd Tuesday of each month) so interested people can build into their calendars. Monthly meetings will be limited to 1 hour to allow attendees to get back to work in a timely manner. We will follow a format similar to other civic clubs in that the meal will begin when you arrive and continue through the lunch hour. Because we will eat from the buffet, a late arrival will not disrupt the meeting. At approximately 12:20, we will have a few short announcements followed by a speaker that will be limited to 15-20 minutes. We will close the meeting with Q&A as well as additional networking. One of the goals of this club is to allow those that attend determine what course it follows and we hope attendees will suggest future topics of interest as well as alternate meeting times, if desirable.
