March Tech Bunch for Lunch

The New VoIP meets today's challenges

Date: 3/10/09 Time: 12:00– 1:00

Location:
Ryan's Family Buffet
107 Executive Court
Danville, VA 24541
[directions](#)

Kevin Walsh, NTELOS Product Development and Management, will discuss how the New Voice-over-IP meets today's challenges. He will cover products and services available today to increase productivity and enhance the bottom line of any business, and he will provide insight into what is coming in the near future.

Topics will include:

- Effective communications solutions for tough economic times
- HD Voice - improving sound quality
- New applications push capabilities out to VoIP Phones
- True interactivity between the IP phones and the desktop
- Fixed Mobile Convergence for seamless communications wherever you are

About the Speaker:

Kevin Walsh has been developing new products and services at nTelos since 1998. Kevin has developed numerous broadband and VoIP products, and was the leader of the nTelos team that received the national "IP Innovator of the Year" award from Cisco Systems for his work with VoIP and Metro Ethernet. He serves on the Shenandoah Valley Technology Council Board, where he is currently Vice President.

There is no fee to attend.

The restaurant's nearly 100-item lunch buffet is approx. \$10.50 including beverage & tip.

Like many other civic clubs, we plan to hold the meetings on a regular monthly basis (2nd Tuesdays) so interested people can build into their calendars. Monthly meetings will be limited to 1 hour to allow attendees to get back to work in a timely manner. We will follow a format similar to other civic clubs in that the meal will begin when you arrive and continue through the lunch hour. Because we will eat from the buffet, a late arrival will not disrupt the meeting.
