What are the City of Danville’s goals on targeting technology based businesses? What Information Technology initiatives have helped attract those types of businesses to the area?

Jeremy Stratton, Director of the City of Danville Office of Economic Development, will answer these questions and discuss the overall economic development environment of the Danville area.

About the Speaker
Jeremy Stratton has been the Director of Economic Development for the City of Danville since August 2007. Under his leadership, six companies have announced their intentions to locate and expand in Danville resulting in the creation of 969 jobs and \$286.45 million capital investment. He has over twelve years experience in economic development on the local level in Tennessee, South Carolina, and North Carolina.

There is no fee to attend.
The restaurant’s lunch buffet is approximately \$10.50 including beverage & tip.

Like many other civic clubs, we plan to hold the meetings on a regular monthly basis (2nd Tuesdays). Monthly meetings will be limited to 1 hour to allow attendees to get back to work in a timely manner. We will follow a format similar to other civic clubs in that the meal will begin when you arrive and continue through the lunch hour. Because we will eat from the buffet, a late arrival will not disrupt the meeting.
