Date: 9/08/09 **Time:** 12:00– 1:00

Location:
Ryan's Family Buffet
107 Executive Court
Danville, VA 24541
[directions](#)

The Advanced Vehicle Research Center (AVRC) had its grand opening for the new Headquarters in Danville, Virginia on August 21st, 2009. Join us to learn about the AVRC and discover what their initiatives are.

About the AVRC

Focused on automotive, aerospace, energy research and development, the AVRC is a private for-profit corporation that promotes alternative fuel research and technology commercialization, working with the leading universities of the Southeast region to provide education and outreach activities.

AVRC has a commercial initiative to convert hybrid Toyota Priuses to Plug-In Hybrid Electric Vehicles. (PHEVs) and other initiatives include natural gas conversion and Hydrogen mobile generation. AVRC has done more PHEV conversions than any other company on the East Coast for clients including Progress Energy, Duke Energy, City of Raleigh, and other clients from New York to Florida.

Directly following the Tech Bunch for Lunch, we will be heading for a round of golf at the Goodyear Golf Course!

Just \$30 - INCLUDING CART for a full 18 holes on one of the finest golf courses you'll ever play.

Tee times arranged between 1:30pm—2:30pm. We will be playing Captain's Choice style.

In addition to having a great afternoon with your Tech Council, invite a nonmember to play and receive a \$50 dues credit if your "guest" joins!
