September 14, 2010 Tech Bunch for Lunch -- Fixed Mobile Convergence

David Martin with Tango Networks will speak on a hot new topic – Fixed Mobile Convergence. This technology will allow a company to optimize the use of both its mobile devices and its PBX ([Private Branch Exchange](#)).

Fixed Mobile Convergence will provide many benefits:

- Help lower long distance costs
- Allows 4 digit dialing from mobile devices
- Simplifies call transfer & conference calling
- May reduce the requirements for expensive desk sets
- Biz Continuity to assure phone numbers are replicated and usable when there is a catastrophic failure

**Date:** Tuesday, September 14, 2010

**Time:** 12:00 - 1:00pm

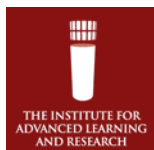

**Location:** Institute Conference Center (The Institute for Advanced Learning & Research ),  
150 Slayton Avenue, Danville, VA 24540 [directions](#)

We would also like to Thank You for your participation in the Tech Bunch for Lunch program series and we will be providing lunch at this month's event.

**Please RSVP by email to [rachel.reynolds@ialr.org](mailto:rachel.reynolds@ialr.org) to ensure we will have a reserved lunch waiting for you.**
